

# DRIVING GROWTH THROUGH PAYMENT

## Achieve a seamless payment experience

Dedicated to the airline industry, IATA Financial Gateway (IFG) helps airlines optimize their payment strategy and contributes to their overall profitability.

- Providing airlines with an orchestration layer to manage and control their global payment processes across all sales distribution channels

- Expanding the availability of different payment methods, while ensuring seamless NDC/Agency sales payment and settlement processing, in BSP and ARC

- Enabling airlines to retain passengers by offering convenient payment methods at every step of their journey, from purchasing tickets, to excess baggage, to in-flight services

- Supporting airlines' retail strategy at all touchpoints of the journey, to improve the user experience and maximize revenue per passenger

- Removing integration challenges for airlines, while allowing more flexibility and options when selecting payment service providers

IATA Financial Gateway (IFG) is a payment management platform for airlines that also acts as a neutral marketplace to facilitate business for payment service providers. Join the IFG Community: [iata.org/ifg](https://iata.org/ifg)
